## **Reflection on "In Debt We Trust America":**

**Due** Saturday, October 26 by 11:59pm **Points** 10

Write a **one to two page** reflection (at least one full page, *single spaced, 10 or 12 pt type, no more than one inch margin top, bottom, or sides*) about what you watched. Write this in a word document, create a .pdf (if possible), and upload it here.

In this reflection, tell me about what you learned. What was disturbing? How did it change the way you think about finance? Was there a real "aha" moment for you?

This should be a collegiate-style paper with an opening and closing, paragraphs, and logical flow. The response will be graded on: insight, structure, and proof that you watched the video.
